Khaled Ahmed Ramadan

Senior Product Manager

Cairo, Egypt | +20 108 003 3211 | Khaledram96@gmail.com | LinkedIn | Portfolio

SUMMARY

Senior Product Manager working in product since 2019 across B2B and B2C products. At **Aqarmap** I lead discovery, strategy and delivery for monetization, lead quality and listing experiences. As a freelancer I took an **EdTech platform from concept to a live product**. I think strategically and enjoy building: I prototype with AI tools and create **AI agents** that help automate everyday product work.

EXPERIENCE

Senior Product Manager

Feb 2022 – Present

Aqarmap · Real estate technology (PropTech) · Cairo

- Conduct qualitative (user interviews, surveys, usability testing) and quantitative (data analysis, funnel metrics, behavioral analytics) research to uncover customer needs and pain points.
- Work closely with UI/UX designers to translate insights into intuitive, user-centric solutions.
- Validate product ideas and hypotheses through continuous experimentation and feedback loops for B2B and B2C users.
- Define and maintain the product roadmap, prioritizing initiatives by business goals, user value and data-driven insights.
- Align product vision and strategy with company objectives, keeping all stakeholders informed and coordinated.
- Lead sprint planning, backlog grooming and daily stand-ups with engineering, design and QA for timely, high-quality delivery.
- Translate requirements and user problems into well-defined user stories, acceptance criteria and deliverables.
- Define, monitor and analyze feature-level KPIs to evaluate performance and identify opportunities for improvement.
- Collaborate with marketing, sales and operations teams on go-to-market execution and adoption.

Project Manager (Freelance)

Dec 2025 – Jun 2026

CSA Academy · EdTech · Remote

- Conducted competitive analysis of the EdTech market to identify opportunities for differentiation.
- Translated business requirements into visual prototypes in Figma, keeping all stakeholders aligned.
- Owned the structure and design of the admin dashboard, building interactive prototypes for clearer, faster decisions.
- Planned meetings and recorded walkthrough videos to enable faster, clearer communication across the team.
- Followed up closely with the designer to ensure delivered solutions met the agreed requirements.
- Owned delivery, testing and handover to the client, ensuring a smooth, high-quality transition.

Product Owner

Dec 2019 – Dec 2021

Bites · Giza

- Strategized and presented product ideas to stakeholders.
- Defined product features according to customer needs.
- Led the development process end to end.
- Acted as the main point of contact between teams and stakeholders, keeping customers and stakeholders informed of product status.

CASE STUDIES

Lead Quality
Cut fake-number leads from ~22% to ~0%.

View case study ↗

Sub Accounts
One company account, the right access per agent.

View case study ↗

Aqarmap Pro
Buyer subscription adding 5% to revenue.

View case study ↗

New Add Listing
Native 5-step flow with AI-written content.

AI AGENTS & VIBE CODING

AI Product Agent
A multi-agent product team that turns my brief into reviewed Figma designs and Jira-ready requirements.

1. **Product Owner** — Writes requirements and the plan
2. **Product Designer** — 2 Figma options, desktop & mobile
3. **Head of Product** — Reviews UX and design-system fit
4. **My approval** — Then Jira AC and frontend handoff

Built with Claude Code subagents · Figma · Jira

AI QA Agent · Lead Generation
Runs Aqarmap's 32 lead test cases (call, WhatsApp, Top Seller) and reports every run automatically.

1. **Test cases** — Written from the Jira issue
2. **Browser run** — Scripted Playwright tests
3. **Manual OTP** — Agent pauses and asks me for the code
4. **Telegram report** — Results with evidence
5. **Sheet update** — Test cases synced to Google Sheets

Built with Claude Code subagent · Playwright · Jira · Telegram · Google Sheets

Torta Lab · Vibe coding
Live

A custom-cake ordering website I designed and built end to end with AI-assisted development.

Next.js · React · TypeScript · Tailwind CSS · NestJS · Supabase · Vercel · Railway
