EXPERIENCE

02/2022 – Present
Nasr City, Cairo, Egypt

Senior Product Manager · Full-time

Aqarmap — a leading real estate platform

- Conduct both qualitative (user interviews, surveys, usability testing) and quantitative (data analysis, funnel metrics, behavioral analytics) research to uncover customer needs and pain points.
- Work closely with UI/UX designers to translate insights into intuitive, user-centric solutions that address those pains.
- Validate product ideas and hypotheses through continuous experimentation and feedback loops for both B2B and B2C users.
- Define and maintain the product roadmap, prioritizing initiatives based on business goals, user value, and data-driven insights.
- Align product vision and strategy with company objectives, ensuring clear communication and coordination across all stakeholders.
- Lead sprint planning, backlog grooming, and daily stand-ups, collaborating with engineering, design, and QA teams to ensure timely, high-quality delivery.
- Translate requirements and user problems into well-defined stories, acceptance criteria, and deliverables that add measurable value.
- Define, monitor, and analyze feature-level KPIs to evaluate performance and identify opportunities for improvement.
- Collaborate with marketing, sales, and operations teams to ensure successful go-to-market execution and adoption.

12/2025 – 06/2026
Remote, Egypt

Project Manager · Freelance

EduSmart — an EdTech marketplace connecting students with qualified teachers across Egypt

- Conducted competitive analysis to understand the EdTech market and identify opportunities for differentiation.
- Communicated with the business team to translate requirements into visual prototypes in Figma, keeping all stakeholders aligned.
- Owned the structure and design of the admin dashboard, building interactive prototypes for clearer visualization and faster decisions.
- Planned meetings and recorded walkthrough videos to enable faster, clearer communication across the team.
- Followed up closely with the designer to ensure delivered solutions met the agreed requirements.
- Owned delivery, testing, and handover to the client, ensuring a smooth and high-quality transition.

12/2019 – 12/2021
Sheikh Zayed, Giza, Egypt

Product Owner · Full-time

Bites — a product-focused tech company

- Strategized and presented ideas to stakeholders.
- Defined product features according to customer needs.
- Led the development process end to end.
- Acted as the main point of contact between teams and stakeholders.
- Kept customers and stakeholders informed of product status.

EDUCATION

09/2014 – 05/2018
Cairo, Egypt

B.A. in Business Administration

Cairo University

SKILLS

KPI Setting | Product Roadmapping | Roadmap Execution | Prioritization | Adaptability | Manual Testing | API Testing | Jira | Trello | Vision Setting | Google Workspace | Miro | Wireframes | Prototyping | Stakeholder Management | User Experience (UX) | Figma Make | Bolt.new | Wootric (NPS) | Firebase | Google Analytics | Clarity

KEY ACHIEVEMENTS

Increased Conversion Rate
Boosted lead generation per session from 14% to 26%.

Improved Lead Quality
Enhanced lead qualification so over 90% of leads delivered to clients are highly interested.

Led Mobile App Rebuild
Owned the delivery of rebuilding the mobile app with Flutter, cutting development and maintenance costs.

Improved Team Productivity
Increased tech team delivery efficiency from 60% to above 85% per roadmap commitment.

Built an EdTech Marketplace from Scratch
Led EduSmart from concept to delivery-ready MVP, evolving a single-teacher academy into a scalable marketplace connecting students, teachers, and educational centers across Egypt.

Revenue Growth Through Product Innovation
Developed monetization features such as a subscription system and leads bank, driving a 20% revenue increase.

Doubled Organic Traffic
More than doubled organic traffic via SEO and speed optimization, and improved email alert and newsletter performance.

Successful CRM Integration
Owned the integration project with Zoho CRM.

Backlog Reduction
Slashed issue backlog by 64% (from 700 to 250 issues).
