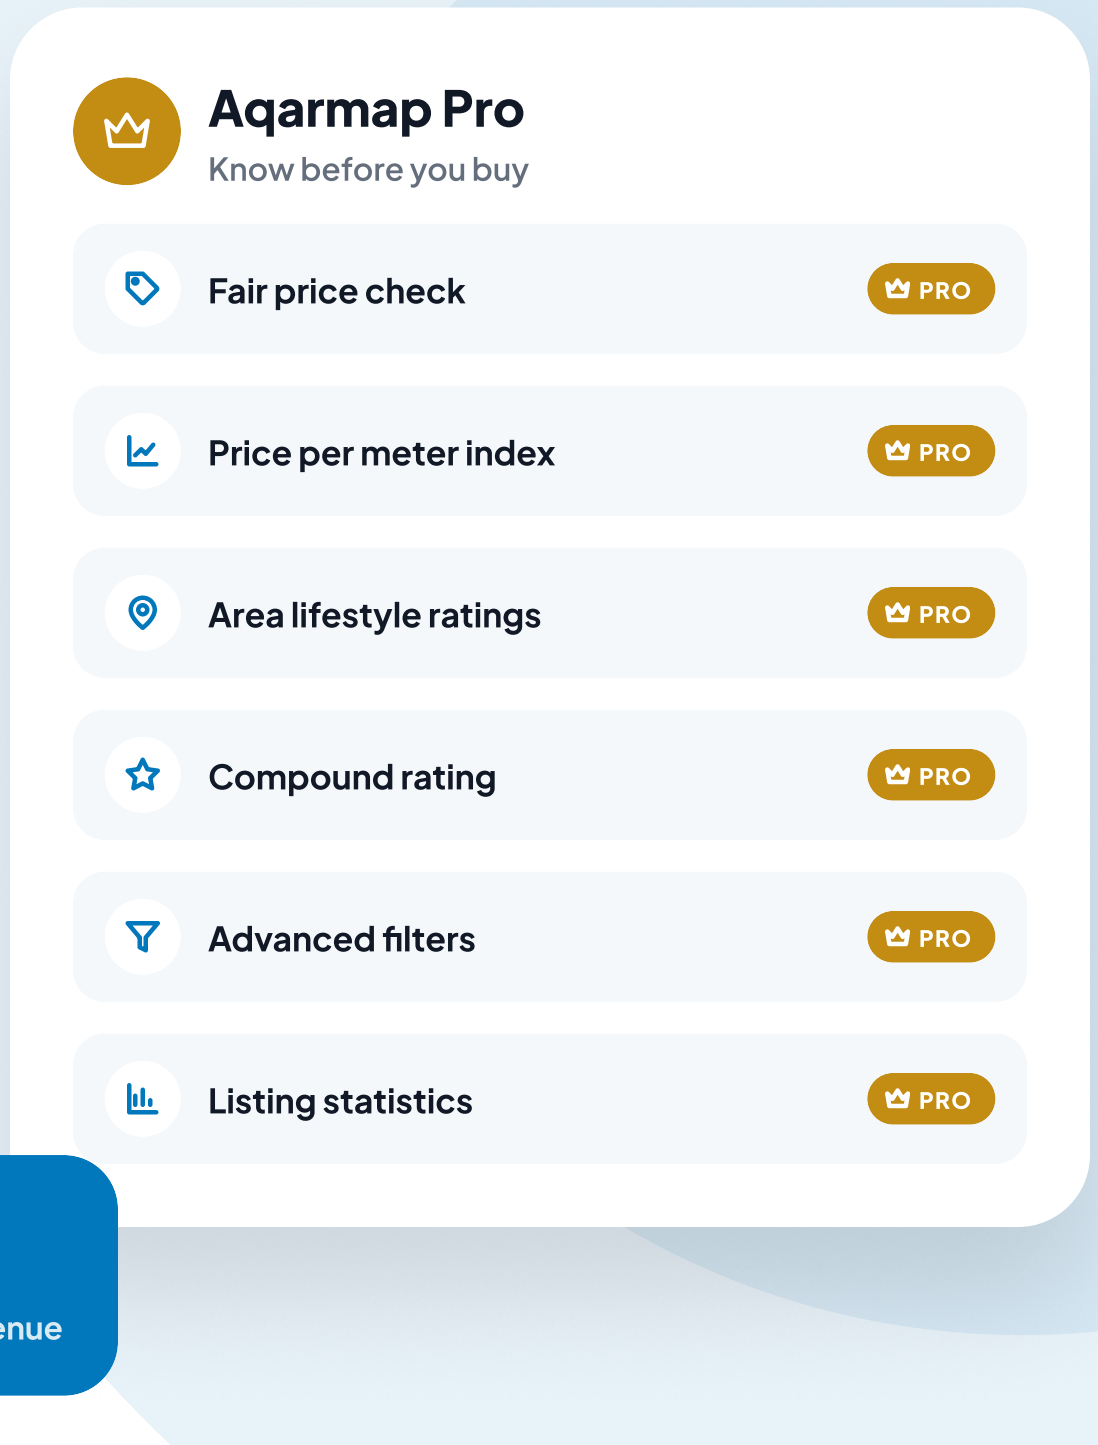
AQARMAP PRO

Turning buyers into paying subscribers, a new revenue stream for Aqarmap.



Aqarmap Pro
Know before you buy

- Fair price check — PRO
- Price per meter index — PRO
- Area lifestyle ratings — PRO
- Compound rating — PRO
- Advanced filters — PRO
- Listing statistics — PRO

+5%
to company revenue

Khalid Ram · Product Manager

Project Overview

During a company-wide monetization push, our team explored many ideas. Aqarmap Pro, a subscription that gives buyers the data they need to decide, was one of them.

My role **Product Manager**	Users **Home buyers**
Platforms **Web · iOS · Android**	Timeline **2025 – 2026**

Weekly Pro revenue, Jul to Dec 2025

~4.8×

+5% added to the company's revenue

Background & Objective

A company strategy for a period of time: monetization. Every buyer used our data tools for free, and none of them paid us anything.

Brokers
Pay for packages
Almost all of Aqarmap's revenue

Buyers
✕ Pay nothing
The biggest audience, using price data and ratings for free

→

Objective
Create a new revenue stream from buyers

Company strategy
Monetization → Idea · Idea · Idea · Idea · Aqarmap Pro

Our team brought many ideas. This was one of them.

Validating the Idea

Two questions before building anything: will buyers pay, and for what?

1 Will buyers pay?

We made one feature paid for buyers and watched the revenue.

✓ **Revenue came in. Buyers are ready to pay.**

2 What should be paid?

Competitive analysis to find features competitors don't offer, that users still need.

✓ **Lock what only we offer, and give buyers real value for paying.**

We locked a feature only if

Competitors don't offer it + Users still need it + It gives clear value = Pro feature

What we put behind Pro PRO

Is it a fair price?
Compares the listing's price to the average price in its location

Price per meter index
Average price per meter and the last 12 months trend

Area lifestyle
Full ratings for schools, healthcare and services

Compound rating
Compound and developer ratings, plus a recommendation

Advanced filters
Direct from owners, floor, view, delivery date, baths

Listing statistics
Impressions, views and leads, with a 30-day trend

Smart sorting
Search results sorted by the buyer's preferences

Free users see a teaser
Plus a "Try for free" call to action that opens the plans

Phase 1 Launch

A full subscription system, and our data tools moved behind Pro.

Subscription plans
Plans page, subscribe and pay, success and fail messages

Free trial
Try Pro before paying

My subscription
Manage the plan from My Account, web and app

Pro paywall
Free users see a teaser, Pro users see everything

Where we started, July 2025

1.02%
of sessions clicked on any Pro entry point

52%
of new subscriptions cancelled or failed

Banners missed
Usability testing showed users overlooked or misunderstood them

Phase 2 Grow & Retain

Small, fast hacks to get more buyers to click, and more subscribers to stay.

Fair price banner
Shows if the listing's price is fair against its area average, target CTR 7.5%

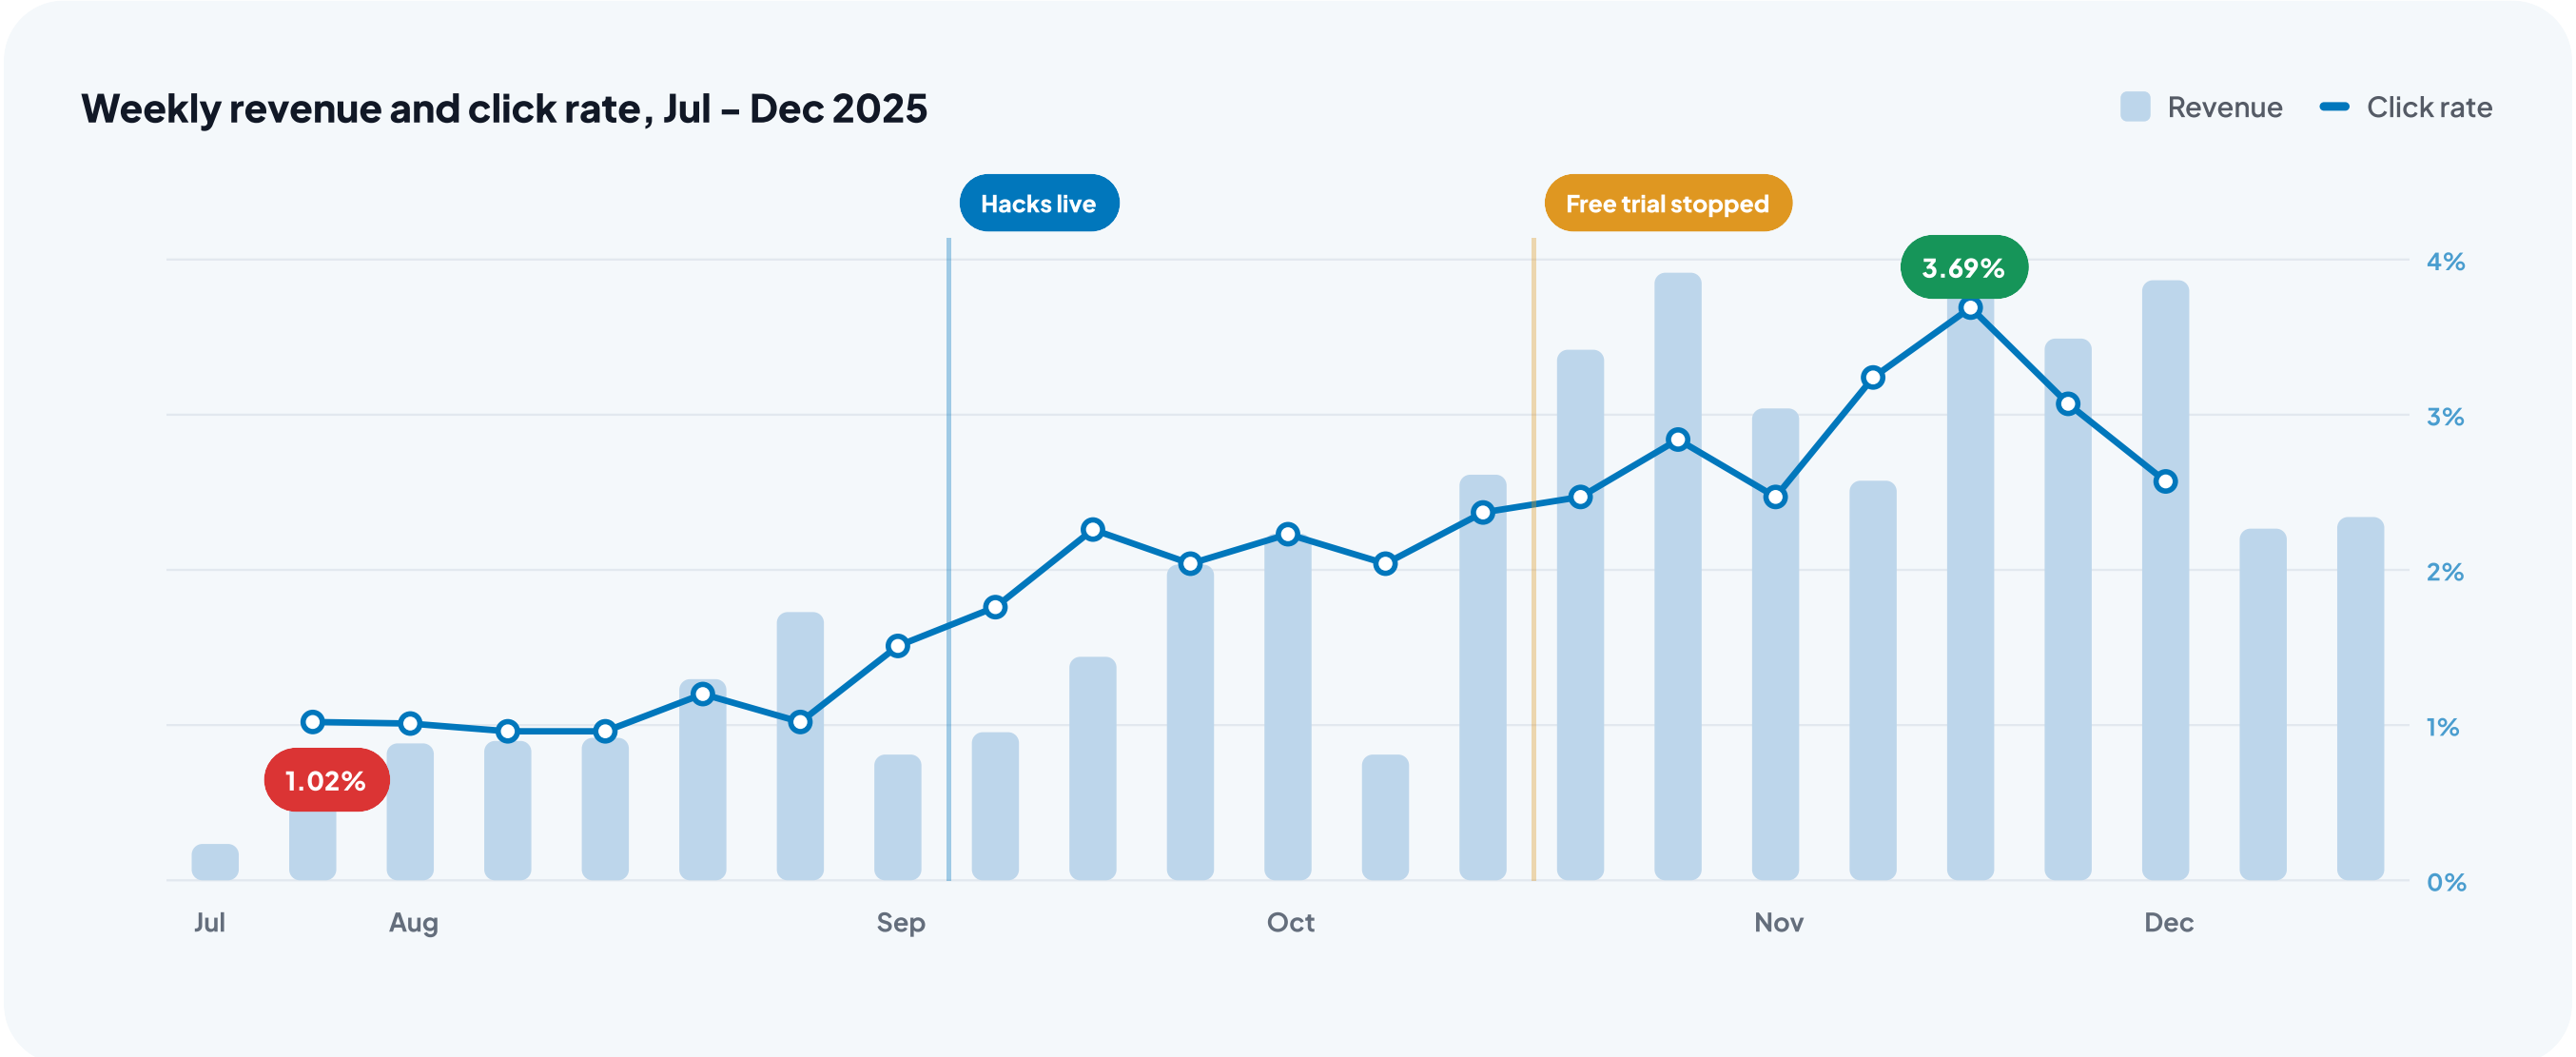
Onboarding popup
Introduces Pro in search results

Price index card
Moved to the 2nd card in search results with a clearer message

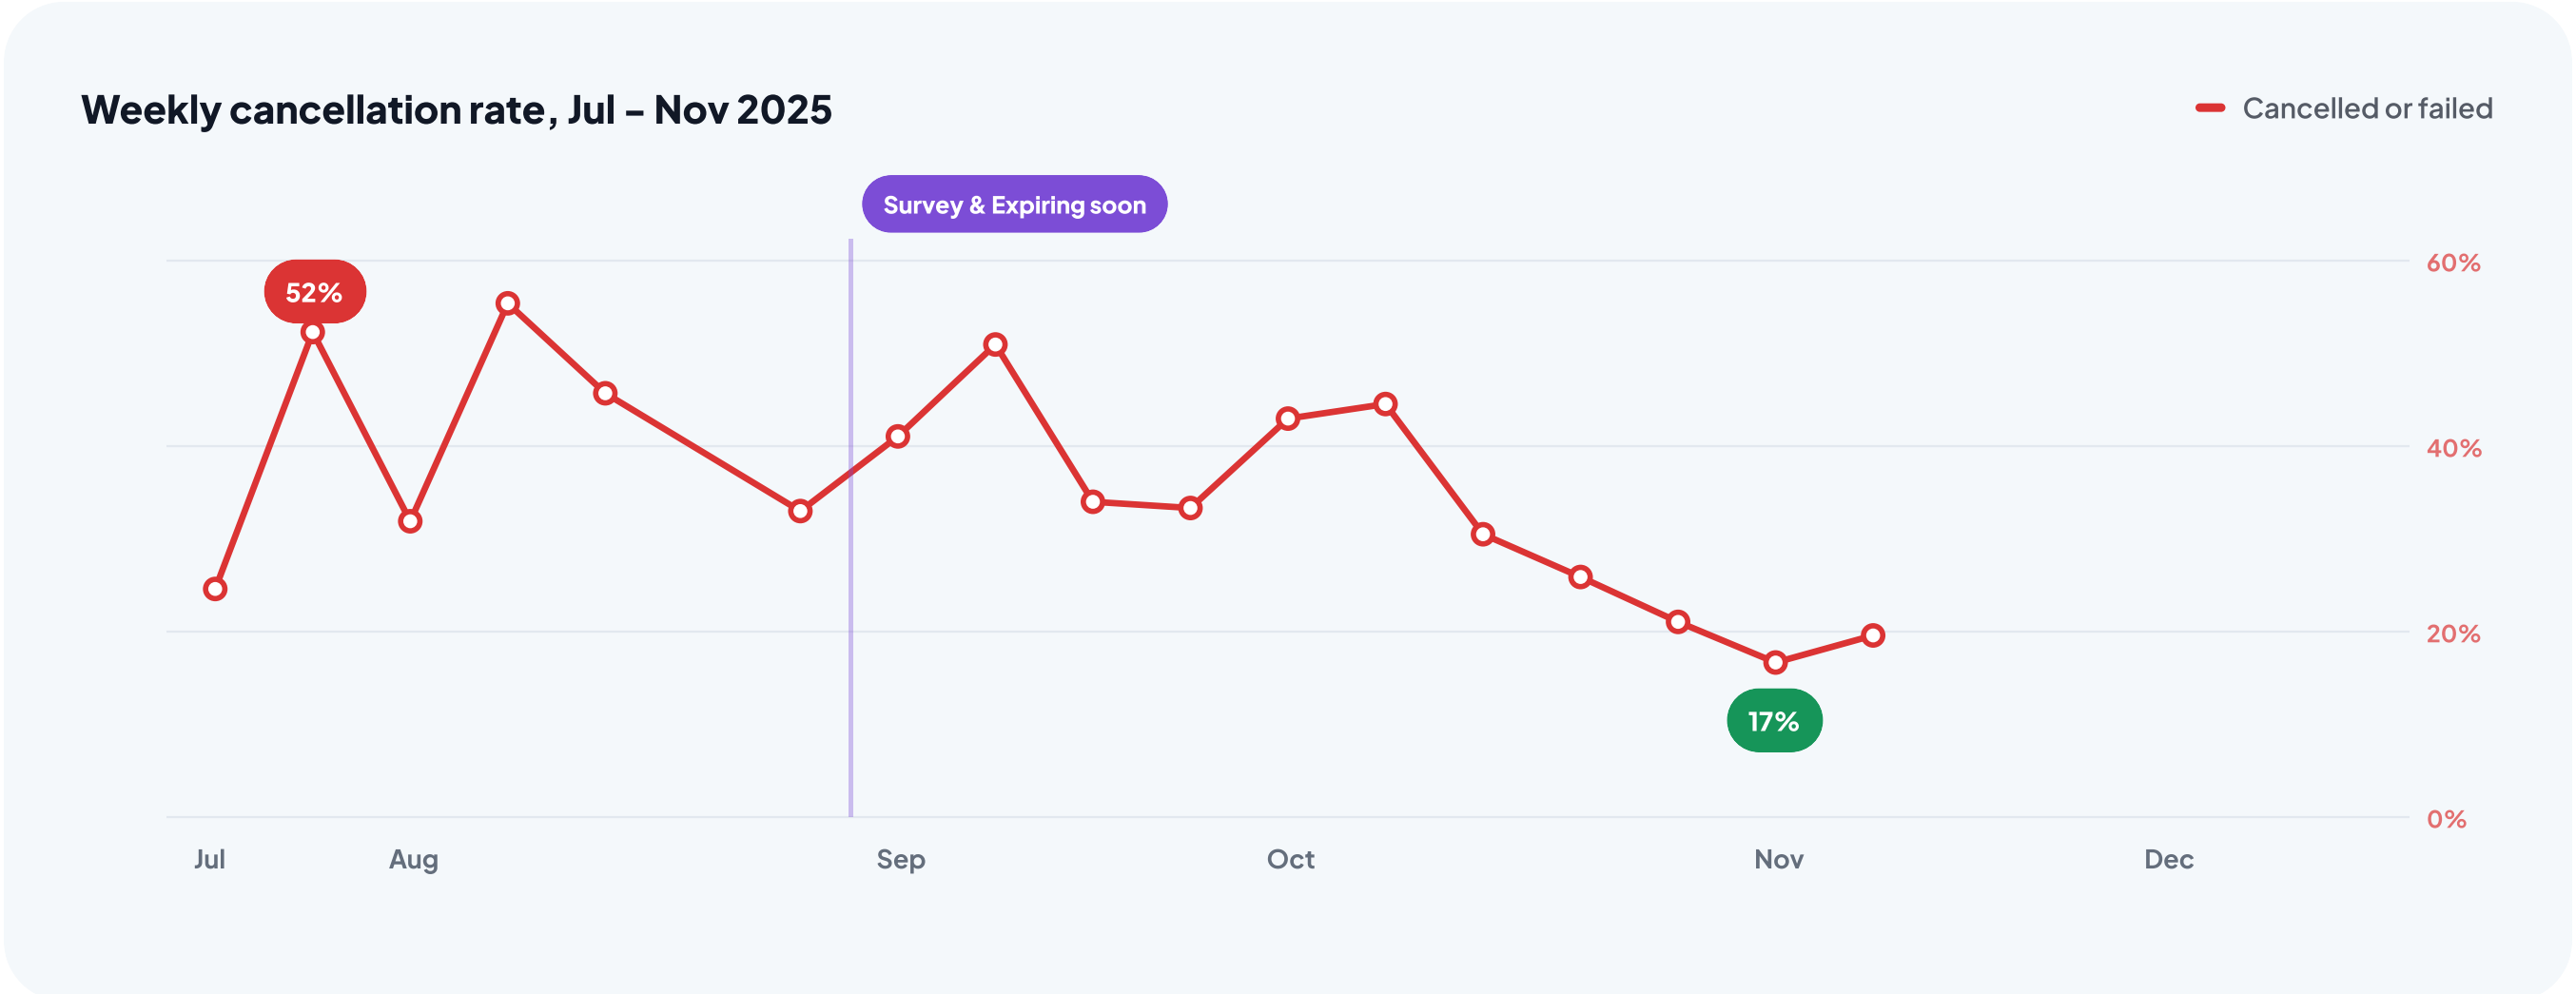
Pro filters
Locked filters became a strong entry point

Cancel survey
Ask why before a subscription ends

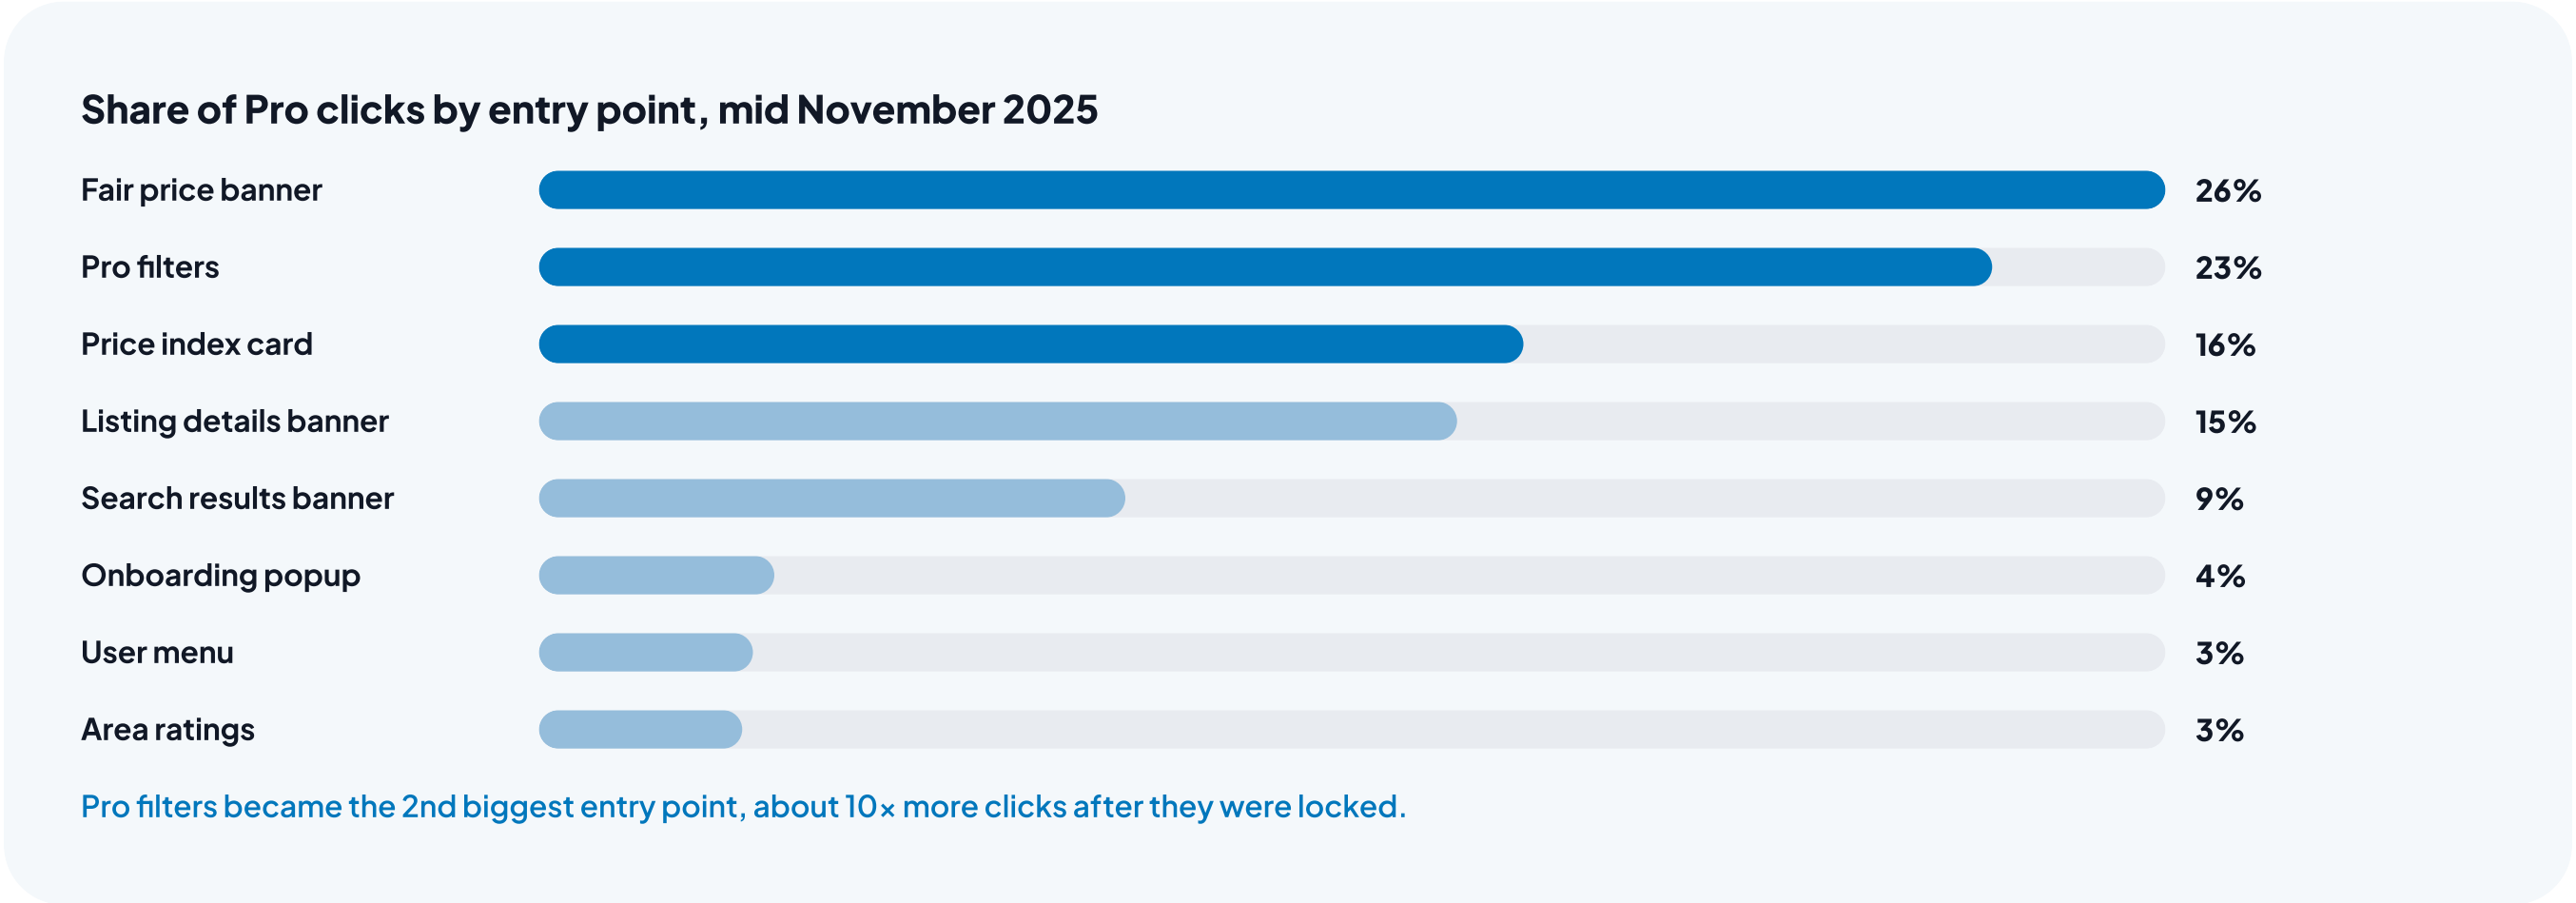
Expiring soon
A third status with a Reactivate button



Weekly revenue and click rate, Jul – Dec 2025



Weekly cancellation rate, Jul – Nov 2025



Share of Pro clicks by entry point, mid November 2025

Pro filters became the 2nd biggest entry point, about 10× more clicks after they were locked.

Phase 3 Listening to Cancellations

The cancel survey told us why subscribers were leaving, and it wasn't what we expected.

Why are you cancelling?

● "I thought I could add my listing"
The most common reason

○

○

→

Many subscribers weren't buyers at all.

They were private owners who wanted to sell, and Pro didn't let them post a listing.

So we added a Pro plan for private owners

Buyers
Aqarmap Pro
- ✓ Is it a fair price?
- ✓ Price index & area data
- ✓ Pro filters & ratings

Private owners
Pro (Private Owner)
- ✓ Every Pro feature
- ✓ Plus adding their own listing

Plans without add listing now say so clearly, so no one subscribes expecting it.

Growth Hacking 2026

Make it work. The 2026 plan was to increase Pro revenue, and that needed two things.

Goal 1
More people to buy

Goal 2
More people to stay active

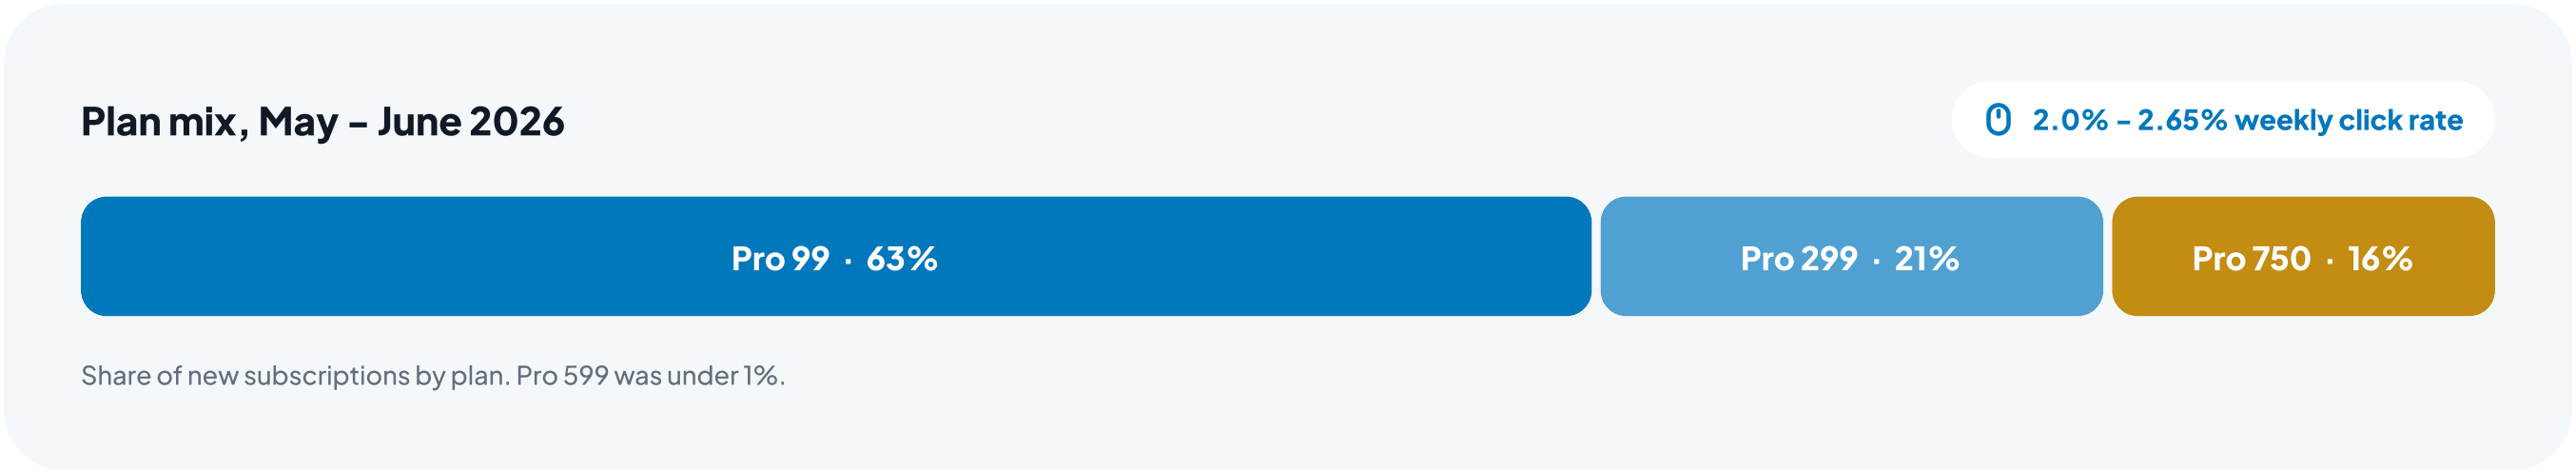
What we did

3-month package
A new plan at 299 EGP, more revenue now and fewer cancellations after a year
More buyers · Stay active

Yearly plan banner
Promoted the yearly package right on the payment page
More buyers

Better fair price
The new valuation model now powers the fair price on every for-sale property type
Stay active

Clear plan note
Subscriptions say they are not for adding a listing, to cut refunds and cancellations
Stay active



Plan mix, May – June 2026

Share of new subscriptions by plan. Pro 599 was under 1%.

The Impact

~4.8×
weekly Pro revenue growth, Jul to Dec 2025

+5%
added to the company's revenue

3.6×
click rate on Pro, 1.02% to 3.69%

52% → 17%
weekly cancellation rate

Ratings & Satisfaction →
